

Acme Cloud Billing Policy

1.1 Billing cycle

Subscriptions are billed on the same calendar date as the signup date, either monthly or annually. Invoices are emailed after each charge and are available under Settings, Billing, Invoices.

1.2 Accepted payment methods

We accept Visa, MasterCard, American Express, and PayPal. Customers in India can also pay with UPI and net banking.

2.1 Failed payments

A failed payment is retried 3 times over 7 days. You receive an email after each failed attempt. If all retries fail, the account moves to the Free plan after a 7 day grace period.

2.2 Updating a payment method

To update your card or payment method, open Settings, Billing, Payment Methods and choose Add new method. The new method is used for the next retry or renewal.

3.1 Plan changes

Upgrades take effect immediately and the price difference is prorated. Downgrades take effect at the start of the next billing cycle.

3.2 Cancellation

You can cancel at any time under Settings, Subscription. Access continues until the end of the paid period and no further charges are made.

4.1 Taxes and invoices

GST or VAT is added based on your billing country. You can add a tax ID under Settings, Billing. Invoice corrections can be requested within 90 days of the invoice date.

4.2 Price changes

We give at least 30 days of notice by email before any change to subscription pricing.

5.1 Billing disputes

If you do not recognise a charge, contact support within 60 days of the charge date and include the invoice number or the last 4 digits of the card.
